

14th International BUILDAIR Symposium

Airtight Buildings, Thermography and Ventilation Systems in Practice

Call for Papers – take an active part in shaping the symposium!

August 15, 2024

Dear partners for airtight construction,
dear friends all over the world,

On May 16 and 17, 2025, the time has come - experts from all over the world will once again meet in Hanover for the International BUILDAIR Symposium. In 2025, the industry meeting will once again offer a unique opportunity to find out about the latest developments and best practices, highlight particular challenges in airtightness testing and share experiences across national borders.

One of the secrets of the conference's success are the top-class, practice-oriented presentations, which will be simultaneously translated as usual. We therefore cordially invite you to contribute to the success of the symposium next spring with a presentation from your field of activity. The topics can be found on the [information sheet](#) and on the [conference website](#). You can fill out the [submission form](#) on your PC and send it to us by [e-mail](#) by September 20.

Please be so kind as to forward this invitation with the Call for Papers to the 14th International BUILDAIR Symposium to your colleagues and business partners. Thank you very much!

And as always - if you have any questions, please do not hesitate to contact us by e-mail. We look forward to receiving your abstracts and to a inspiring Symposium 2025!

All the best to you,
kind regards
Sabine Schneider
on behalf of the organization team

PS: Our aim is to keep the participation fee as low as possible - we are therefore happy to receive any sponsorship amount, its a pleasure for us to discuss the details with you individually. And as usual, there will be a trade exhibition parallel to the symposium, if you register early you can get your desired place!!

The conference at a glance

Organiser:
