

14th International BUILDAIR Symposium

Airtight Buildings, Thermography and Ventilation Systems in Practice

December 16, 2024

Dear partners for airtight construction,
dear friends all over the world,

We cordially invite you to the 14th International BUILDAIR Symposium in Hanover next May. In 2025, the leading conference on airtightness will once again offer a unique opportunity to find out about the latest developments and best practice and to exchange experiences across national borders. In 2025, we are organising the conference in close cooperation with the AIVC, which is why the second day will start with an AIVC panel that will take a detailed look at developments in Europe.

Is there an optimal airtightness concept for the retrofitting of existing buildings? This is one of the topics that the symposium on Friday will focus on. Several speakers from different countries will report on their experiences – theory and practice do not always coincide. We want to discuss the reasons for this and what we can learn from it.

What needs to be considered when measuring the airtightness of special buildings? How accurate is which method for analysing the measured values? The lecture programme on Saturday revolves around these questions. It also includes exciting presentations on ventilation. Over the coming weeks and months, we will present the lecture [topics](#) in more detail.

As usual, the conference will be accompanied by a trade exhibition. This will enable you, as a participant, to find out about products that match the topics of the presentations and that can be used to put into practice. And for you as a company, it offers the opportunity to talk to many representatives of your target group in a relaxed atmosphere. We have compiled the form for hiring a stand and further information for you on the conference website under [exhibition](#).

The third pillar of the symposium is the exchange of ideas. That is why we have once again planned a conference dinner for Friday evening. This time it will take place in the green areas opposite the Congress Centrum, in the VaBene restaurant.

Please be so kind as to forward this invitation to the 14th International BUILDAIR Symposium to your colleagues and business partners. Thank you very much!

We look forward to seeing you again in May 2025!

We wish you a Merry Christmas and a Happy New Year,
best regards
Sabine Schneider
on behalf of the organisation team

The conference at a glance

Organiser:	
Dates:	16. und 17. Mai 2025
Conference venue:	Hannover Congress Centrum (HCC) Theodor-Heuss-Platz 1-3 30175 Hannover
